Denise.Littlejohn@teex.tamu.edu 979-458-2270

**Registration:** [TEEX Online Registration Link](#) or Scan QR code

**Audience:** All first responders, veterinarian, vet techs and animal control

#### ***Classes are subject to change/cancellation without notice***

This 36-hour course is a partnership between TEEX and TAMU VET and assumes the adherence to NFPA 1670 Awareness/Operations/Technician level standards for Animal Technical Rescue. The course is designed to meet the needs of responding to the different victims wherever possible and to incorporate appropriate sections of NFPA 1006 as needed.

This course covers situations involving confined space, below grade, low and high angle rescues. Techniques for each type are discussed and applied to a variety of scenarios that a responder is likely to encounter. A capstone experience at the end of the course requires that students apply the knowledge gained.

There are no prerequisites for this course.

\***PPE** / Review [ESTI Student Safety Manual](#) PPE requirements for levels 5 - Work type gloves and Hard Hat
