<td>NFA - Fire Service Safety Culture: Who Protects Firefighters from Firefighters</td>
<td>Feb. 29 &amp; Mar. 1, 2020</td>
<td>0</td>
<td>This is a two-day course that will help fire service personnel identify their present fire service safety culture, explain how culture drives safety behavior, identify risk management strategies, and develop a fire service safety culture intervention plan to reduce injury and death to firefighters in their organization. The course content includes National Institute for Occupational Safety &amp; Health (NIOSH) Fire Fighter Fatality Investigation and Prevention Program reports, organizational change and leadership models, and risk control systems. Learning methods include case studies, problem solving, and strategic and tactical planning that are used in individual, small</td>
