**Course Description:** This conference is approved for 9 hours of TCOLE credit. This annual conference is now in its 14th year and continues to provide valuable opportunities to build relationships, knowledge, and research. This International Behavioral Medicine Conference is designed to challenge, inspire, and encourage participants to explore mental health issues and access the resources and support provided by the leading authorities in their perspective fields of behavioral medicine. The content covers the difficult issues of behavioral health management in clinical practice and the frequent and perplexing disorders where psychiatric illness presents as physical disease. This conference will provide tools to better manage behavioral health disorders and emphasize optimizing quality of care and patient outcomes.
