Course	Day / Time	*REQ	Objectives/Description	Hrs.
Scientific Protocols for Fire Investigation	October 8-10, 2024 8:00 AM – 5:00 PM	0	John Lentini is one of a handful of people certified to conduct both fire scene investigations and fire debris analysis.	24

**ESTI Student Safety Manual PPE requirements for levels (0-5). Classes are subject to change and/or cancellation.*

Course Description: By listening to him speak and reading his book, you will learn how to write better reports, testify better, and understand where the “other side” will try to unravel your investigations. This class will be one of the most useful classes as it will teach you basic skills in an advanced way. He won’t tell you what to not write in your report, or what not to say, he will show you mistakes by other investigators, and how it was used against them, so you don’t make the same mistakes. Each attendee will also receive a copy of John Lentini’s book, Scientific Protocols for Fire Investigation.

TCOLE eligible course.
