Course	Day / Time	*REQ	Objectives/Description	Hrs.
Interior/Exterior Structure Fire Attack FEE: \$50.00 ARE024-22 https://rb.gy/op3jx1 	October 5, 2024 9:00AM – 3:30PM	4	This comprehensive course is designed to equip firefighters with the essential skills and knowledge required to effectively combat interior and exterior structure fires. Participants will engage in hands-on live fire training exercises. The course covers fundamental fire behavior, strategic and tactical considerations, and the application of various firefighting techniques in realistic scenarios. By the end of the course, firefighters will be proficient in coordinating fire attack operations, ensuring personal safety, and mitigating property damage during structure fire incidents.	6
S-130/190 Basic Wildland Firefighter/Introduction to Wildland Fire Behavior - Blended Format FEE: No Fee ARE024-21 https://rb.gy/gjehbx 	October 5, 2024 7:00AM – 4:00PM	2	This will be a blended course delivery. The student will be required to complete all coursework online prior to the field day. This includes the online portion of S190, S130, L180 and IS-100. The field day will be about 8 hours and will consist of a closed book test. S130 and S190 online certificates must have a completion date within a 180-day window prior to the field day. No pack test will be given. This course is TCFP eligible.	8

<p>Controlled Flammable Liquid Burns FEE: \$50.00 ARE024-23 https://rb.gy/mspuif</p> 	<p>October 5, 2024 5:30PM – 10:30PM</p>	<p>4</p>	<p>This course provides comprehensive training in the safe and effective handling of controlled flammable liquid burns. Participants will learn about the properties of flammable liquids, the dynamics of liquid fire behavior, and the techniques for controlling and extinguishing liquid fires. Through field instruction and hands-on practical exercises, attendees will gain valuable skills in risk assessment, fire suppression, and emergency response. Ideal for firefighters, industrial safety professionals, and emergency responders, this course ensures preparedness for managing flammable liquid fire incidents safely and efficiently.</p>	<p>5</p>
