Session	Day / Time	*REQ	Objectives/Description	Hrs.
 PFFMA/CFA Fire Chief's Meeting https://tinyurl.com/476mwr3m FEE: \$0.00 TAD503 - 0117	Friday, October 17 6:00 PM – 10:00 PM	1	This Fire Chief's Meeting, jointly hosted by the Panhandle Firefighters & Fire Marshals Association and the Canyon Firefighters Association, is designed to bring together fire service leaders from across the region for collaborative discussion and strategic planning. The session will cover critical topics including regional emergency response coordination, leadership best practices, and emerging challenges in fire prevention and suppression. Attendees will have the opportunity to share experiences, address common concerns, and strengthen inter-agency relationships. This meeting is essential for current and aspiring fire chiefs, command staff, and senior fire service personnel committed to advancing fire safety and operational excellence in the Panhandle region. This meeting will also serve as a Planning Meeting for the 2026 Canyon Area Fire Control School.	4
SFFMA Testing https://www.sffmaportal.org/Personal/Testing/WrittenTestScheduler No Registration through TEEX myStudent Portal, registration is via SFFMA Portal	Friday, October 17 6:00 PM – 10:00 PM	1	Students will need to make sure they have registered your account in the SFFMA PORTAL. Once an exam is displayed in the "Awaiting Scheduling" column of the exam eligibility page within the SFFMA PORTAL, you will be contacted by SFFMA staff to schedule your exam. SFFMA Staff will be able to provide you with testing dates and locations from which you can choose. You will receive a confirmation email from SFFMA when the scheduling is complete. Locking on: 10/15/25 5:00 PM	
 Ground Cover Firefighting https://tinyurl.com/2f3a6hf9 FEE: \$75.00 ARE147 - 0125	Saturday, October 18 8:00 AM – 12:00 PM	1	The Ground Cover Firefighting course is designed to equip firefighters with essential knowledge and hands-on skills for safely and effectively combating wildland and grass fires. This course covers fire behavior in ground cover fuels, tactical approaches for suppression, use of hand tools and water delivery systems, personal protective equipment, and safety considerations unique to wildland environments. This course is ideal for both new and experienced firefighters seeking to enhance their wildland firefighting capabilities.	4

 TEEX FP ARE147 124 R	Fireground Size-Up: Through a Different Lense https://tinyurl.com/3ccrrckt FEE: \$75.00 ARE147 - 0124	Saturday, October 18 8:00 AM – 12:00 PM	1	Fireground Size-Up: Through a Different Lens is an interactive course designed to challenge and expand the traditional approaches to fireground assessment and decision-making. Participants will explore innovative size-up techniques, integrating modern technology, diverse perspectives, and critical thinking to enhance situational awareness and operational effectiveness.	4
 TEEX FP ARE147 123 R	Basic SCBA https://tinyurl.com/dfw54ex3 FEE: \$150.00 ARE147 - 0123	Saturday, October 18 8:00 AM – 5:00 PM	4	NFPA 1001 objectives for SCBA - Pre-1403 and NFPA 1001 objectives for FFI SCBA Completer	8
 TEEX FP ARE147 122 R	Ropes https://tinyurl.com/4a7zhebe FEE: \$150.00 ARE147 - 0122	Saturday, October 18 8:00 AM – 5:00 PM	4	The Ropes course provides firefighters with foundational knowledge and practical skills in rope use for fire and rescue operations. This hands-on course covers rope types, knots, and hardware, as well as the safe application of ropes in various scenarios such as hoisting tools, victim rescue, and establishing anchor systems. Through classroom instruction and practical exercises, students will gain confidence in using ropes to support fireground and technical rescue activities. This course is suitable for both new and experienced firefighters seeking to enhance their proficiency in rope operations.	8
SFFMA Skills Testing Certification Workshop (sffmaportal.org) No Registration through TEEX myStudent Portal, registration is via SFFMA Portal <u>Students must be eligible to test Skills (Must have passed the written exam in discipline being tested)</u>		Saturday, October 18 8:00 AM – 5:00 PM	4	The SFFMA Skills Testing provides firefighters with the opportunity to demonstrate proficiency in essential fire service skills as required by the State Firefighters’ and Fire Marshals’ Association of Texas (SFFMA). This skills testing session is designed for individuals seeking SFFMA certification. Participants will be assessed by certified evaluators to ensure compliance with SFFMA standards.	
 TEEX FP ARE147 121 R	Advanced SCBA https://tinyurl.com/y8cksct8 FEE: \$75.00 ARE147 - 0121	Saturday, October 18 8:00 AM – 12:00 PM	4	NFPA 1001 objectives for FFII Completer	4

Session	Day / Time	*REQ	Objectives/Description	Hrs.
 TEEX FP ARE147 120 R <p>Common Passenger Vehicle Extrication Awareness/Operations/Technician</p> <p>https://tinyurl.com/2648bs5z FEE: \$225.00 ARE147 - 0120</p>	Saturday, October 18 8:00 AM – 10:00 PM	4	The Common Passenger Vehicle Extrication Awareness/Operations/Technician course is a comprehensive program designed to equip firefighters and rescue personnel with the knowledge and hands-on skills necessary for safe and effective vehicle extrication. This multi-level course covers the full spectrum of extrication, beginning with awareness-level concepts such as scene safety, vehicle anatomy, and hazard identification. At the operations level, participants will engage in practical exercises involving stabilization, tool selection, and basic disentanglement techniques. The technician component delves deeper into advanced extrication strategies, including complex rescue scenarios, use of hydraulic and pneumatic tools, and patient care considerations during extrication.	12
 TEEX FP ARE147 119 R <p>Hose Handling Techniques</p> <p>https://tinyurl.com/48xj2jae FEE: \$75.00 ARE147-0119</p>	Saturday, October 18 1:00 PM – 5:00 PM	4	The Hose Handling Techniques course is designed to provide firefighters with essential skills for the effective deployment, advancement, and management of fire hose lines in a variety of operational settings. This hands-on course covers hose selection, loading methods, stretching and advancing techniques, nozzle operation, and teamwork strategies for both interior and exterior fire attacks.	4
 TEEX FP ARE147 118 R <p>Live Fire LPG & Container **</p> <p>https://tinyurl.com/mry5d4if FEE: \$75.00 ARE147 - 0118</p>	Saturday, October 18 6:00 PM – 10:00 PM	4	The Live Fire LPG & Container Fire course offers firefighters hands-on experience in managing and extinguishing fires involving liquefied petroleum gas (LPG) and various container types. This dynamic course covers the properties and hazards of LPG, fire behavior in pressurized and non-pressurized containers, and tactical approaches for safe and effective suppression. Participants will engage in live-fire evolutions, practicing critical skills such as leak control, cooling techniques, coordinated hose line operations, and emergency shutdown procedures. This course is ideal for firefighters seeking to enhance their confidence and competence in handling high-risk LPG and container fire incidents.	4

Session	Day / Time	*REQ	Objectives/Description	Hrs.
 TEEX FP XTN118 156 R	Electric Vehicle (EV) Battery Awareness https://tinyurl.com/bdhukk2e FEE: \$0.00 XTN118 - 0156	Saturday, October 18 1:00 PM – 5:00 PM	1 Discover the challenges presented by Lithium-Ion (Li) batteries, electrified transportation, and energy storage systems. This course will present a short history on how Li batteries function, the risk of thermal runaway, why Li fires are so difficult to put out, resources available to responders, concerns for towing companies and battery recycling facilities, and provide tools on how to protect yourself and the public. Topics Covered: Battery Chemistry Discussion Thermal Runaway & Flood Damage Response SOPs and SOGs Response Guides Post Incident Considerations Horizon Opportunities	4

***ESTI Student Safety Manual PPE requirements for levels (0-5). Classes are subject to change and/or cancellation.**

****Fire Chief or Training Coordinator will need to verify the student has met NFPA 1001 FF 1 Live Fire Prerequisite.**

If the student already has met the NFPA 1001 FF 1 Live Fire Prerequisite requirements, the student will need to bring The appropriate documentation.
