Course Description: N0670 – “Community Risk Reduction: A Policy Approach.” The purpose of this 6-day course is to empower students with the ability to create, evaluate and defend public policy in their home community. The course is also designed to facilitate understanding of how codes and regulations can be used as an effective component of fire prevention, fire mitigation and overall community risk reduction. A risk assessment is used to prioritize risk. The course presents the stages of the policy process, which includes

- Problem identification and agenda setting
- Policy formation
- Issue resolution and policy adoption
- Implementation and application
- Evaluation
