# MASS PROPHYLAXIS AWARENESS FOR PUBLIC HEALTH EMERGENCIES

## Web-Based AWR-314-W

This course enhances community preparedness by providing awareness-level training on the roles and responsibilities of the local public health community and its partners. The course covers local and federal resources and capabilities that may exist to help provide post-exposure prophylaxis for a large population in response to a catastrophic CBRNE or other public health event. It also reviews actions taken by a local jurisdiction during a public health emergency that require response at the local level and deployment of the Strategic National Stockpile (SNS).

### Topics:

- Overview of Medical Countermeasures
- Division of the Strategic National Stockpile
- Community Medical Countermeasures Operations

### Training Level:

Awareness

### Venue:

Online at [teex.org/nerrtconline](http://teex.org/nerrtconline)

### Course Length:

Varies based on participant's progress; estimated completion time is 2 hours

### Participant Audience:

- Public Health Personnel and Health Care Workers
- Emergency Management Personnel
- Law Enforcement Personnel
- Emergency Medical Services Personnel
- Public Information Personnel
- Public Works Personnel
- Fire Services Personnel
- Government, Military and Tribal Organizations
