

Deployment Statistics

Personnel activated supporting the following resources:

- 3 PWRT Strike Teams Deployed
- 1 Representative in DDEOC 15 and 16
- SOC Staffed

Type – **Severe Weather**

On April 26, 2024, the Public Works Response Team (PWRT) deployed three Strike Teams to Beaumont, Houston, and Lufkin in Region 2. Team members also supported DDEOC 15 and 16, while the State Operations Center (SOC) was activated and fully staffed.

PWRT members assisted local communities with water system and utility challenges, conducted PSAT assessments, and utilized sUAS drones to capture aerial imagery of flood-impacted public water and wastewater infrastructure. These efforts provided critical information to help local partners assess damages, prioritize response actions, and begin recovery efforts more quickly.
