TEXAS A&M ENGINEERING

EXTENSION SERVICE

Texas EMS Education Grants

Available to improve Emergency Medical Response in Rural and Frontier areas of Texas

TEEX.org/EMS

The Texas A&M Engineering Extension Service (TEEX), in conjunction with the Texas Department of Transportation, is committed to improving pre-hospital care and emergency medical response in rural and frontier areas of Texas. The goal of the Rural/Frontier EMS Education Grant is to improve accessibility of training in these areas and EMS involvement in local communities.

EMERGENCY SERVICES TRAINING INSTITUTE

PO Box 40006
College Station, TX 77842-4006

866-878-8900
979-217-6579

ems@teex.tamu.edu

FUNDING AVAILABLE

Funding provided through the Texas Department of Transportation

Audience

Agencies and departments responsible for emergency medical services in frontier and rural areas of Texas.

Types of Training

- Initial EMS Training
- Refresher Course Training
- Continuing Education Courses

Class Location

Courses are offered at your location to minimize the time away from the station and keep volunteers in their community. Class size and length is based on the type of course requested and minimum Texas Department of State Health Services or other governing agency guidelines.

Grant Application

To apply, please visit TEEX.org/ems and click on “Rural/Frontier EMS Funding.” The application is available for download under “General Information.”
