

# Track Option Requirements:

## Track A

### Training/Education Requirements, one of the following:

- NFPA 1021 Fire Officer IV Certification
- NFPA 1021 Fire Officer II Certification and Texas Fire Chiefs' Academy
- NFPA 1021 Fire Officer II Certification and SFFMA Fire Chief Development Program
- NFPA 1021 Fire Officer II Certification and NFA Managing Officer Program
- NFPA 1021 Fire Officer II Certification and CPSE Fire Officer (FO) Designation

Your Fire Officer II or Fire Officer IV certification shall be issued by either the Texas Commission on Fire Protection (TCFP), International Fire Service Accreditation Congress (IFSAC), Pro Board, State Firefighters' & Fire Marshals' Assn. (SFFMA), or your State Fire Training Authority.

## Track B

### Education/Experience Requirements, one of the following:

- Five years of documented command administrative staff experience in emergency response and a bachelor degree in a related field.
- Five years of documented command administrative staff experience in emergency response and NFA Executive Fire Officer (EFO).
- Five years of documented command administrative staff experience in emergency response and either The Commission on Professional Credentialing (CPC) Chief Fire Officer (CFO), or Chief Training Officer (CTO), or Chief EMS Officer (CEMSO), or Fire Marshal (FM).

Command administrative experience is defined as work conducted above the response/tactical level, specifically working in administrative related to related strategic departmental duties.

## Track C

### Experience Requirements:

- Ten or more years of documented command administrative staff experience in emergency response.

Command experience is defined as work conducted above the tactical level, specifically working in administrative or related strategic departmental duties.
