WHY WATER AND WASTEWATER?

LOW INVESTMENT

A low cost Basic Water Works or Basic Wastewater Operations class will prepare you to earn your license to work in the Water and Wastewater industry.

CAREER BENEFITS

Working in the water and wastewater industry will offer you the opportunity to work anywhere you'd like while receiving competitive pay and benefits such as health insurance and retirement plans through your employer.

CONTINUE YOUR EDUCATION

Your TEEEX training may be eligible for college credit across numerous colleges and universities through the American Council of Education which has reviewed over 100 TEEEX courses.

GETTING STARTED IN THE INDUSTRY

Start by choosing either WWW001 or WWW101. Both courses provide an overview of TCEQ regulations and licensing in the water utility industry.

WWW001 BASIC WATER WORKS OPERATIONS

TEEX.org/class/www001

Learn about the water cycle and the unique responsibilities of water system personnel.

WWW101 BASIC WASTEWATER OPERATIONS

TEEX.org/class/www101

Introduction to wastewater collection and treatment along with a brief review of the water cycle.

TRAINING AT YOUR OWN PACE

Correspondence training enables those with conflicting or tight schedules to study and prepare for TCEQ testing on their own time. For more information visit: teex.org/online-correspondence

WWW400 BASIC WATER WORKS OPERATIONS

Equivalent to WWW001, this course equips you with knowledge of the water cycle and responsibilities of water system personnel.

WWW450 BASIC WASTEWATER OPERATIONS

Equivalent to WWW101, this course is designed to introduce the wastewater industry including the collection, treatment, safety, and the role of the operator.

WWW401 GROUNDWATER PRODUCTION

Equivalent to WWW002, provides basic review of the water cycle and responsibilities of system personnel, water storage, pumping, and distribution.

WWW451 WASTEWATER TREATMENT

Equivalent to WWW102, this course reviews rules and regulation for wastewater dischargers and application of formulas to real world problems in treatment and disinfection.

WWW452 WASTEWATER COLLECTION

Equivalent to WWW103, areas covered include laws and regulations for collection and treatment of wastewater along with formulas and their real-world application to hydraulics and pumping.

HOW TO REGISTER

ONLINE:

Sign up for Basic Water (WWW001) or Basic Wastewater (WWW101)
TEEX.org/class/www001
TEEX.org/class/www101

CALL 800.723.3811

A customer service representative can help you register on weekdays from 8A.M.–5P.M.

SEARCH FOR TEEX COURSES

Visit TEEX.org and search by the course code. A full list of courses can be found at TEEX.org/water

TCEQ AUTHORIZED TESTING

Test with TEEX in Bryan, TX on the A&M RELIS campus. Testing is by appointment only and TCEQ pre-approval to test is required.

COMPUTER BASED TESTING

For more information visit:
TEEX.org/class/www901
TEEX.org/class/www902*

REQUIREMENTS:

- TCEQ authorization letter
- Call 800-723-3811 to schedule your appointment

RENEWING YOUR LICENSE

Every three years, your professional license expires. TCEQ requires 30 hours of training for renewal. At TEEX, you can knock out 20 of the required 30 hours and can opt for an online awareness course to round out your training.

CERTIFICATES

WATER UTILITY CERTIFICATES

Awarded to industry professionals who've completed over 60 hours of specialized training. This certificate demonstrates your dedication to your industry and your commitment to attain the safety knowledge and skill needed to protect yourself and your crew.

Visit TEEX.org/program/water-utility-certificate for more information.

Tracks:

- Wastewater Operator
- Water Maintenance Technician
- Water Operator

CERTIFIED WATER PROFESSIONAL

The CWP is a recognition program which is awarded after completion of 250 hours of training and represents the highest industry professional credential. It provides professional recognition for those involved in water and/or wastewater operations.

Visit TEEX.org/CWP for more information.

Tracks:

- Drinking Water Track
- Wastewater Track
- Dual Water/Wastewater Track

*Available late 2022

TEXAS A&M ENGINEERING

EXTENSION SERVICE

WHY TRAIN THROUGH TEEX?

The Texas A&M Engineering Extension Service (TEEX) is an internationally recognized leader in the delivery of emergency response, homeland security, workforce training and exercises, technical assistance, and economic development. TEEX services over 200,000 people from every U.S. state and territory and 133 countries worldwide.

The Infrastructure Training & Safety Institute (ITSI) is one of five divisions within TEEX. ITSI focuses on offering high quality training and technical assistance to meet the current and future needs of public and private sector professionals in the infrastructure, safety, health, and environmental fields.

TYPES OF TRAINING OFFERED

Face-to-Face

In-person training in a classroom or the field, often with hands-on exercises.

Instructor-Led Live-Online

Online training in a virtual classroom environment. It offers the convenience of training with instructor interaction.
