

TEXAS A&M PUBLIC WORKS RESPONSE TEAM

Personnel

- 1 team supervisor
- 1–10 heavy equipment operators
- 1 team safety officer

Equipment

- Contingent on severity of incident
- 3–10 total personnel

Task & Purpose

- Assist with debris removal.
- Assist with removal of damaged vehicles, structures, and clearing of roadways and other transportation infrastructure.
- Transportation of machines and equipment.
- Assist with recovery of stranded and disabled vehicles.
- Provide other heavy equipment needs or assistance to local/state agencies.

Mission Function

- Provide for the clearing and removal of materials that hinder rescue and recovery operations.
- Removing or recovering vehicles that obstruct the free flow of traffic.
- Clear debris to make roadways accessible for emergency vehicles and utility crews.

The Heavy Equipment Strike Team is comprised of the best equipment operators in the state. Their years of experience operating heavy equipment allow them to assist with debris removal, clearing roadways, removing of destroyed structures and vehicles, and hauling heavy equipment to any location in the state.

When emergency response vehicles need access to a disaster scene, the operators on the Heavy Equipment Strike Team will clear the way.
