

TEXAS A&M PUBLIC WORKS RESPONSE TEAM

# Utilities Strike Team >>>>>>>

# Personnel

- 1 team supervisor
- 2–10 team members for operations work
- 1 team safety officer

## Task & Purpose

- Provide electric utility-related damage assessment for local governments, counties, and state agencies following a disaster.
- Provide lineworker operations assistance to local government and state agencies following a disaster.

## Mission Function

- Provide disaster scene assessment and relay information to State Operations Center.
- Coordinate with local utilities to assess estimated service restoration.
- Provide hands-on assistance.

**T**he Electric Utilities Strike Team provides real-time assessments of damaged power transmission facilities and communicates situational reports to the State Operations Center. The team may assist in restoring power by assisting in the repair of downed power lines, deploying portable generators, or communicating with private companies or public agencies to facilitate repairs.
