

New Annual Schools Path toward Firefighter I and II Certification

ASP601 – NFPA 1001

Structural Firefighter I—Online Classroom

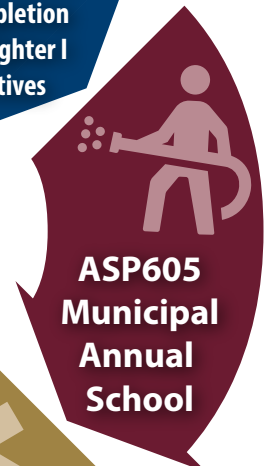

Begin with the online lecture for Firefighter I and work at your own pace for up to 12 weeks. These additional required assignments can be taken for free: Courage to be Safe, NIMS700/800, and ICS100/200. Student must upload certificates when prompted to complete required objectives.

ASP602 – NFPA 1001

Structural Firefighter I Skills—Live Fire Prerequisite

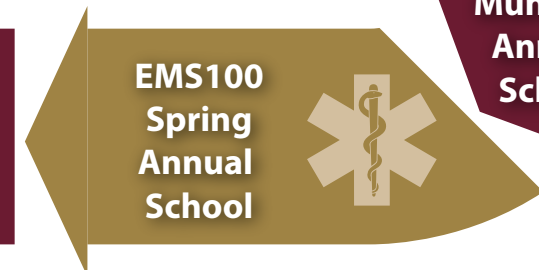

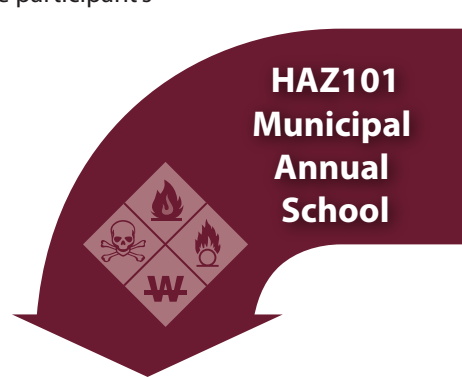

Course meets the objectives set forth by NFPA 1403 to be completed prior to student going into an interior live fire scenario. With proper documentation, these objectives could be completed at the participant's home unit/department.

ASP603 – NFPA 1001

Structural Firefighter I Skills—Completer

Course offers evolutions for students to rotate through such as a vehicle, dumpster, and interior structure fires. To be successful, students will take the individual skills they have learned and combine them for use during live fire scenarios.

ASP604 – NFPA 1001

Structural Firefighter II—Online Classroom

The online lecture portion for Firefighter II may be completed at your own pace for up to 12 weeks. Traffic Incident Management is an additional required assignment that can be taken for free. Student must upload certificate when prompted to complete the objectives required for Firefighter II.

ASP605 – NFPA 1001

Structural Firefighter II Skills

Course includes all skills required for Firefighter II: vehicle extrication, preplans & life safety survey, liquid fuel & pressurized gas fires and structure fire scenarios / burns.
