

2024

Camp Wood, TX

Deployment Statistics

Lasted a total of 7 days

5 Personnel activated supporting the following resources:

- 5 PWRT Personnel deployed to Camp Wood, TX
- Water/Wastewater Team

Type – **Lack of Potable Water**

During the first week of September, PWRT was called to assist the City of Camp Wood, TX, with challenges at their water treatment plant. The team installed new controls for the chlorinator system, resolving issues with the chlorine feed, and conducted a full system flush to ensure accurate water quality testing. These efforts helped restore safe and reliable water service for the community and supported local officials in maintaining critical public health standards.
