

Weather Safety: Tornado in a Bottle (Grades K-6)

Objective

Understand tornado formation and weather safety.

Materials

- 2 clear plastic bottles
- Water
- Duct tape
- Glitter or dish soap (optional)

Instructions

1. Fill one bottle $\frac{3}{4}$ with water, add glitter or soap.
2. Tape the bottle necks together tightly.
3. Flip and swirl to create a vortex.
4. Discuss tornado safety and how to respond during a storm.
